

# Our Earth in Perspective

**Now compare our Sun to other stars...**

One more...

**Antares is the 15th brightest star in the sky.**  
**Antares is the bright red star in the constellation Scorpius**  
<http://my.execpc.com/60/B3/culp/astronomy/Summer/scorpius.html>

**"Who are we? We find that we live on an insignificant planet of a humdrum star lost in a galaxy tucked away in some forgotten corner of a universe in which there are far more galaxies than people."**  
**-Carl Sagan**

**Summer sky tour:**
